Coaches Education Residential Program in Europe

PATH TO PRO (1)

THE GIS TIERED PLAYER DEVELOPMENT SYSTEM

PATH TO PRO (2)

EUROPEAN RESIDENTIAL ACADEMY

The European Residential Academy is an elite soccer program for talented athletes from all over the world who wish to develop their personal growth in a world class professional environment. Global Image Sports along with its long-time partner Chievo Verona (currently playing in the top Italian tier, Serie A) have developed a residential academy program for talented student-athletes aged 14-17.

The program is intended for all those who wish to improve their soccer development while living abroad, discovering new cultures and meeting players from across the world. The athletes will have the unique opportunity of living in Verona, one of the safest and most beautiful cities in Italy.

What makes the program unique is the involvement of a professional club, who will supply the expertise and facilities, giving players all the necessary tools to succeed.

The Player Development Program will be carried out by the Chievo Verona academy coaches, following the methodology and training methods developed by the club, all focused on the individual's personal and technical growth.
